## WB Silicone Remover

---

### Characteristics

---

4CR Silicone Remover is a low odour, water-borne degreaser for the refinish market.

Environmentally friendly alternative to traditional products (conformable to VOC - solvent content less than 20%).

To be used for pre-cleaning the metal and plastics substrates, filled surfaces and well sanded old coatings.

Degrease by applying to the surface thoroughly with 4CR Silicone Remover and while still wet remove the softened film with a dry, clean cloth.

Change cloth frequently to avoid transferring grease from one part of the surface to another.

---

### V.O.C. Value

---

EC limiting value for the product (cat. B/a): 200 g/l (2007)  
This product contains max. 172 g/l VOC [ 1,43 lbs/gal]

---

### Application

---

Do not allow 4CR Silicone Remover to get dry on the working surface.

Allow a sufficient flush off time of the cleaned surface before the further treatment.

Blow off all residual moisture from corners, edges and grooves with compressed air.

---

### Technical Data

---

Colour shade                      colourless

---

### Storage and Transportation

---

4CR Silicone Remover has a shelf life of at least 4 years, if stored in tightly closed original containers.
