**1196**

## Premium Lifting Tape

### Characteristics

1196 Premium Lifting tape, time saving thanks innovative technology of simultaneous protecting and sealing. Best performance with optimal and professional finishing, can be manually cut both ways vertically and longitudinally in order to mask parts of the vehicle during processing before painting.

### Tech Tip

No more sharp edges, cleaner and faster masking, time saving

### Application

1196 Premium Lifting Tape, is for the masking process of the vehicle. The white part shall remain inside and the green side will be outside of the car to be cut at the desired size and seal. Ideal for door gaps, wheel, trunk, hood...

### Technical Data

Colour	White and Green
Adhesive	Acrilic
Thickness	150 microns
Width	75mm (+/- 1mm)
Length	20m (+/- 0.1m)
Tensile Strength	28 N/cm
Elongation at Break	30%
Heat Resistance	120°C
Adhesion to steel	1,6 (N/cm)

### Storage and Transportation

Store the tape in a ventilated area between 15 C° and 25 C°. Keep away from direct sunlight.
