

Art.-No.: 6.6260.0750

6260

Clean & Protect Spray

Characteristics

4CR 6260 is developed to remove polish residues, fingermarks and dust from paint surfaces easily and quickly. Leaves on paint and other surfaces a high gloss and a slight sealing. Silicone-free.

Tech Tip

6260 works well on all sensitive surfaces (paint, furniture, exotic woods, plastics, glass, etc.). Even before applied agents (polish, sealing, wax, etc.) remain preserved.

Application

THE PROBLEM:

While removing polish residues, dust, fingermarks or similar dirt, the fresh surface often is damaged due to mechanical effects.

THE SOLUTION:

6260 Clean & Protect Spray binds the dirt and dust particles, enables the micro fibre cloth to slide easily over the surface and removes the dirt without leaving any scratches. 6260 cleans, protects, maintains and conserves.

Step 1:

Spray on: Spray 6260 Clean & Protect Spray thinly on to the surface.

Step 2:

Dissolve and remove the dirt: Just wipe up with a absorbent micro fibre, without pressure.

Area of application

- Paint shop, Detailing and cleaning shop: removing of polish residues
- Car dealership: cleaning of the show cars incl. glass and plastic
- "Wash without water": everywhere where there are no washing possibilities

Technical Data

Colour	milky white
Size	750 ml

Storage and Transportation

Keep dry and frost-protected. In tightly closed original containers at least 2 years shelf life.
