## Paint Overall white

---

### Characteristics

---

The Paint overall is very robust, antistatic and breathable. Hood with elastic collar, zipper cover as well as back arm, and leg elastic, durability and comfort.

Due to its air and water vapor permeability properties, the light and soft material offers a high wearing comfort.

It is repellent to water-based fluids, spray mist, and provides a very high barrier against fine particles and fibers with a size of more than one micrometer.

In addition, it is extremely lint-free and antistatic.

No addition of silicone, plasticizer and binder.

---
