

Art.-No.: 6.6710.0001

6710

Dust Mask FFP1

Characteristics

Protection against non-toxic and non-fibrogenic dusts.

Respirators of protection class FFP1 are suitable for work environments in which neither toxic, nor fibrogenic dusts and aerosols are to be expected.

Filter's at least 80% of the particles in the air up to a size of 0.6 μm - and they can be used if the workplace limit value is not exceeded by more than 4 times.

In construction or in the food industry, respirators of class FFP1 are usually sufficient.

Application

As shown in the picture, pull the mask over your mouth and nose and fasten it with the rubber bands on the back of your head. Squeeze nose bridge slightly for perfect fit.
