2K Fade-out-thinner

Characteristics

4CR 2K Fade-out-thinner is a special solvent-based mixture for the dissolution of spray-dust on spot-repairs or blending work.

The transition zone can be easily polished to achieve a brilliant shine.

V.O.C. Value

EC limiting value for the product (cat. B/e): 840 g/l (2007)
This product contains max. 840 g/l VOC [7.01 lbs/gal]

Tech Tip

- Ready for use.
- Apply directly onto the still wet film of paint in several thin layers.
- Excellent levelling qualities for blending work.

Application

Substrate: Can be applied on all customary 2K-fillers, 2K-basecoats and 2K-clearcoats.

Processing conditions from +10°C and up to 80% relative air humidity.

All substrates must be clean, dry and free from grease. Shake can vigorously for approx. 3 mins. prior to use.

Spraying distance approx. 30 - 40 cm.

Apply several thin layers, with a flash-off period of approx. 3 - 5 Minuten between each coating.

After use, turn can upside down and spray until the valve is clean, this prevents the valve from clogging up.

Technical Data

Colour / Grade of Gloss	colourless
Content	400 ml

Storage and Transportation

In tightly closed original containers at least 2 years shelf life.
