Dust Control

Characteristics

A unique liquid especially developed to keep dust at the floor area. Ideal for problematic floor areas such as concrete and wood.

Dust Control saves in maintenance costs and keeps goods and equipment free from dust.

Can be easily applied.

Tech Tip

Recommended for food warehouses, paint spray workshops, body workshops, furniture and other production units, maintenance workshops or any other place where dust circulation needs to be controlled.

Application

Apply with a manual pressure pump. Fill this for $\frac{3}{4}$.

Adjust the nozzle for a fine spray.

Spray the product in a thin but equal layer.

Residual effect: 7-14 days.

1 liter for 250-350m²
