Polishing Cloth

Characteristics

Low linting, very soft polishing cloth with fine hole structure for polishing fresh and old paint surfaces. This non-woven absorbs a large quantity of liquids. Thanks to its apertured structure it removes dust very quickly.

Tech Tip

- Re-usable
- Soft and very flexible
- Super absorbency
- Bio-degradable
- Resist thinners and solvents
- Scratch-free
- Wet and pull strength

Technical Data

Grammage	40 gr/m ²
